MANUFACTURER OF 6 PRESTIGIOUS BRANDS

AV Industry has been the maker of 6 Mass Market Electronic brands. We have only one goal: to fulfill all your needs in the areas of home furnishing, acoustics, and mass market electronics and associated accessories.

Our group manufactures all the products we sell through some of the best brands in their class. In audio, this includes Elipson, Eltax and Tangent, which all demonstrate how innovation is born from considerable experience. These three brands cover the entire range of price points, offering consumers competitive options and original design.

In accessories and TV/ Stereo furnishings, our group is the leader in the French market. NorStone and Ateca Vision offer the widest selection to meet the needs of customers who insist on high quality and accessibility.

Our strengths:

- reliable products, refined design with a tremendous reputation
- European design (from France and Denmark)
- market driven pricing
- products in stock
- high performing integrated logistics
- online marketing tools
- regular presence in the press to support your sales of our products

AV Industry features a sales team at your service throughout France to create with you a successful commercial dynamic. Worldwide, our corporate group employs more than 130 professionals. We feature three European study centers, two in France and one in Denmark, specialized in furniture conception and design, mass market electronic equipment and acoustic speakers. For quality control and monitoring of our production, we also employ 20 professionals in Southeast Asia.

AV Industry is also in a position to design, manufacture, and perform quality control and logistics of in-house brand products. We look forward to fulfilling your needs, and we thank you for your confidence in us.

NORSTONE DESIGN COMBINES PRACTICAL AND ESTHETIC CONSIDERATIONS WITH EXEMPLARY MANUFACTURING QUALITY. WHETHER FOR FURNISHING, SUPPORT SYSTEMS, OR CABLES, EACH DETAIL IS CAREFULLY STUDIED TO PROVIDE THE BEST IN TECHNOLOGY, RELIABILITY AND DESIGN.

Our product lines are regularly improved and redesigned to adapt to the demands of new equipment. To accompany the slender line of today's televisions, our TV stands have followed the same trend and have become slimmer and trimmer with each new generation.

Technological innovation can also be found in the most minute details. The Cooling Door System, for example, will let you naturally ventilate electronic equipment, even with closed doors, to avoid overheating.

Technological research will guarantee flawless performance in both audio and video cables. HDMI cables are tested and validated for compatibility and optimal performance in 3D and 1080p.

NorStone also offers HDMI cables with the latest generation Ethernet support.

In audio, NorStone offers the best quality for the most discriminating users of either RCA or mini-

jack. For instance, captivating packaging attracts shoppers and increases consumer interest: metal cinema box for the highest-end products, and "can shape" for mini-jacks. This packaging also assures the security necessary for your stores' product shelf space. Display units are also available for the promotion of NorStone cables and accessories.

Ecological concerns are taken into account in the design of each piece: optimal packaging for flat delivery, careful choice of materials, etc. Each detail is considered to reduce the carbon footprint while maintaining the utmost in quality.

NorStone accessories include a complete line of TV stands and projectors accompanied by 2 ingenious product solutions. Secure your television using the Safeline Security Kit. And with the Iryx Kit, you can use your peripheral components even when they are placed, for example, inside a closed cabinet.

NEW
SCALA

The Scala is an exceptional TV cabinet! An all-in-one solution, this revolutionary piece allows you to magnify your television set and greatly improve its acoustic quality. In fact the Scala incorporates a discreet yet powerful 2.1 audio system. It will seem like the unit floats in your living room on its clear tempered glass mounts. The power of the speakers resounds from behind the black fabric cover where there is clever storage for CDs and DVDs as well.

To meet the needs of true audiophiles, this piece features Bluetooth connectivity so you access your entire disc collection from your smartphone, tablet or PC totally wirelessly! With a front-facing mini-jack, you can connect any device with ease. Connectivity doesn't end there! Two RCA entries and an optical entry make this a technological jewel since you can connect your Blu-ray player and your television set too. This is the ideal audio ally for your home theater adventures!

BERGEN

BERGEN AV2

BERGEN 2

With 3 wide shelves, the Bergen AV 2 is the perfect unit for high-end audio-video or high fidelity systems.

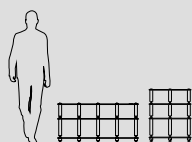

Its height is optimized to accommodate a generously proportioned flat screen. So here is a piece that is suitable for both video and high fidelity sound. The connected shelf bases improve the sturdiness of the entire piece. So each level, including the lower level, features a weight/counterweight balancing system. This piece will be a precious ally to help you conquer those "buzzing vibrations"!

The Bergen units have quickly become audiophile favorites in the NorStone line. Today, the Bergen 2 perfects this highly effective concept. This is nothing new.

With its 4 shelves, it is the perfect unit for high-fidelity high-end sound systems. Its height is perfect for accommodating a turntable on the upper level.

You'll especially love the perfect alignment of the shelves with those of the Bergen AV 2 to create a beautiful combination.

- THE BERGEN LINE'S KEY POINTS:
- FURNITURE MADE WITH AUDIOPHILES IN MIND
 - SHELVES SEPARATE ON POINTS
 - ELEGANT FINISH

EPUR

EPUR 3

EPUR STAND

EPUR 4

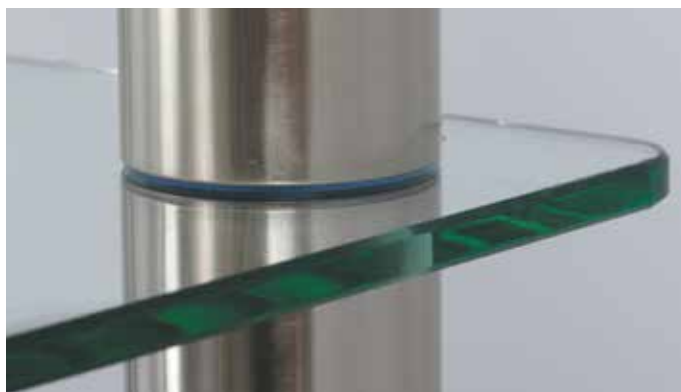

Material and shape subtly converge in the Epur 3 and Epur 4 models for a highly distinguished appeal. These 2 units feature a frame composed of 5 tubes with satiny brushed steel finish to beautifully match the transparency of the glass shelves.

The Epur 3 audio-video piece is designed to accommodate your television as well as your home theatre device and even a central speaker. The exact design of the Epur 3 gives you easy access to the components. Rear ventilation lets you keep your electronic components cool. Also, passages for wiring are perfectly integrated into the piece.

The Epur 4 can accommodate all of the components of your Hi-Fi stereo system. So for example, you can use and showcase a turntable on the upper shelf. You could also use it to display your television and your home theatre device. The unit is on casters, so you can move it around with a maximum of ease.

INTEGRATED CASTERS

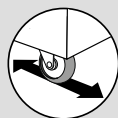

SATIN BRUSHED STEEL FINIS

PIÙ

PIÙ AV

PIÙ

The Più AV is without a doubt the model that best exemplifies the NorStone spirit...It's all about harmonizing contemporary design with solid audio-video home furnishing.

Available in 2 very trendy styles (Piano Black/Black, Piano White/Black), the Più AV also includes everything you'll need for installing a complete home theatre system. With its robust architecture, it can accommodate any type of plasma or LCD weighing up to 80 kg. The middle shelves are sufficiently deep to accommodate any type of AV amplifier.

With this audio-video piece, you can combine elegant design and optimal architecture to accommodate high-end audio components.

Its timeless form is a natural addition to your interior decor. Easily access your components which are kept cool by the rear opening. The dimensions and the design will accommodate a stereo system or a home theatre system with turntable, or even a television up to 30kg on the upper shelf.

THE PIÙ LINE'S KEY POINTS:

- EASY INTEGRATION WITH YOUR INTERIOR DESIGN
- 2 AVAILABLE FINISHES FOR EACH OF THE 2 PIECES

ARKEN

ARKEN 1200 BAMBOO/WHITE

Arken, a light concept for contemporary design...

If you are one of those who insists on true design where esthetics come first, then the Arken line is just right for you!

The 900cm version of the Arken inaugurates an array of products characterized by sculptural lines. Available in a totally white glossy frame, with only the upper shelf in black to give it contrast and making this piece both retro and modern. The 1200cm version revisits the same concept, but it also features a bamboo finish to the delight of those who love adding wood to their decor.

The Arken line also offers a coffee table in the same finish as its TV stands. With a wide bamboo surface and a lower shelf in glass, it will let you store remote controls and various magazines so your living room will stay clutter-free and architectural.

Finally, to complete the Arken line, NorStone has created the Stand. These speaker bases will perfectly harmonize with bamboo or black and will give your living room a resolutely modern feel.

ANTI-VIBRATION SYSTEM

STÄBBL

STÄBBL AV

With the Stäbbl line, Norstone has decided to go with simplicity, and offers 2 TV and Hifi pieces that are perfect for audiophiles. They are as sturdy as they are functional.

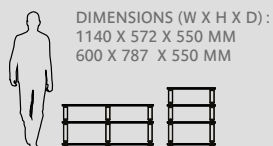

Whether you choose the Hifi or the AV version, the Stäbbl pieces feature unique technical attributes, with a wave absorption system that supports each of the shelves, and featuring a remarkable 15mm thickness. These black glass shelves give this product line a sleek quality that will adapt to every style.

The storage modules feature spacious dimensions to accommodate all the elements of your high fidelity or home theatre system, including the heaviest and bulkiest components. With flawless manufacturing and unflinching high-end design, the stäbbl will satisfy the most demanding tastes.

STÄBBL HI-FI

KUBBEN

KUBBEN STAND

KUBBEN

KUBBEN AV

The Kubben line combines rigorous design and harmonious proportions for results that are both zen and resolutely contemporary. The dark wood posts contrast with the white glass panes that seem to float on the frame.

The AV version can accommodate a large flat screen at the ideal height. Wide shelves will allow you to install your home theatre components as well as decoders to supply high-definition image.

The tall version features 4 solid shelves to accommodate a high-fidelity top of the line system or the electronic components of a home theatre system. The top shelf is ideally situated to accommodate a turntable also.

With its wide interior shelf, you can discreetly install a complete home theatre system. The components will be kept cool with the cooling system when the unit door is closed.

Created in the Kubben style with dark rose wood and white glass panes, the stand will be the perfect accessory for your audio-video equipment. This unit is designed to accommodate bookshelf speakers by placing them at the optimal height. Wiring passages will let you hide the wiring behind the base.

INTEGRATED CABLE MANAGEMENT

BAHO

Like anything truly impressive, Baho instantly captivates with its impeccable style, its lines and surfaces as if they were designed by an architect.

A flawless creation that is extremely functional for holding all your electronic components, both sound and video. With its doors closed, Baho has an ultramodern and precious appeal with rare seductive power.

The imagination of NorStone's designers has managed to transform the TV stand into a luxury decorative object. Beyond its style, Baho also offers several advantages: no assembly required, LED* and infrared** kit built in, multidirectional casters discreetly masked, with generous storage spaces throughout the piece. You'll also note the sumptuous glass surfaces that cover the whole unit.

STANDS

ARKEN STAND

Finally, to complete the Arken line, NorStone has created the Stand. These speaker bases will perfectly harmonize with bamboo or black and will give your living room a resolutely modern feel.

TOLKE

Simplicity and sharpness: these are the 2 adjectives you could use to describe the Tolke speaker feet, specially designed to showcase compact speaker models. These feet are equipped with an atypical cross-shaped base to reinforce their stability. They also come in a choice of finish: black lacquer or raw wood. The telescopic rod masks unattractive wiring and can be adjusted on 2 different positions for ideal placement at the desired height.

STYLUM I, II, III

The Stylum line was designed by an audiophile for audiophiles. The high and low adjustable points mean perfect adjustment for flawless stability. Extremely rigid, these feet contribute very effectively to improving the speakers' bass fidelity.

ESSE STAND

The Esse Stand is the ideal speaker base to match the units in the Esse line. It features the same structural elements and color schemes, and it is available in 2 very contemporary finishes that will blend into any interior, from the most conventional to the most contemporary.

EPUR STAND

The latest addition to the Epur line, this speaker base is set apart because of its resolutely minimalist esthetic qualities. Its well-crafted finish (a mixture of glass and brushed steel) is the perfect way to showcase your speakers and contribute to the harmony of your interior decor. This is without a doubt the smart choice for any sound neophyte, lover, or audiophile.

WALKSTAND

Perfectly set like an Egyptian god on a glossy glass base, the Walk Stand combines dynamism and stability. Its unique design showcases the speakers placed at the top. A cable passage designed to accommodate large diameter wiring ensures the sleek line of the unit. Absorbent feet and supple adhesives for placing the speaker in total security will provide the essential decoupling required for your speaker to function flawlessly.

HILEROD

With their slender design, the HileroD speaker feet feature original and sturdy structure in your choice of 2 colors: black or white for perfect harmony in your interior decor.

Equipped with decoupling points, the HileroD feet prevent vibrations generated by the speaker from spreading over the floor. Their stunning form means that they are sure to stand out.

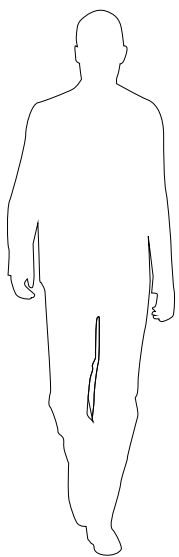

FINN

Speaker foot on a triangular base with hidden passage for cables. Adjustable height. Comes with several fittings to adapt to your speakers. The silver finish brings out the beauty of your interior's colors.

KUBBEN STAND

Created in the Kubben style with dark rose wood and white glass panes, the stand will be the perfect accessory for your audio-video equipment. This unit is designed to accommodate bookshelf speakers by placing them at the optimal height. Wiring passages will let you hide the wiring behind the base..

NorStone accessories include a complete line of TV stands and projectors accompanied by 2 ingenious product solutions. Secure your television using the Safeline Security Kit. And with the Iryx Kit, you can use your peripheral components even when they are placed, for example, inside a closed cabinet.

TV stands range from sizes to accommodate flat screens from 25" all the way up to 63". Four stands can accommodate VESA format screens (400 x 400 max). Some feature tilting and rotation systems to suit your exact needs.

Projector support systems come in 3 styles for wall attachment or ceiling attachment. Whichever model you choose, tilting +/- 15° and 360° rotation make these practical accessory choices for video projectors up to 10kg in weight.

CABLES & AUDIO PACKAGING

NORSTONE CABLES

In audio, NorStone features the best quality RCA and mini-jack cables for the most discriminating consumers. For instance, captivating packaging attracts shoppers and increases consumer interest: metal cinema box for the highest-end products, and “can shape” for mini-jacks. This packaging also assures the security necessary for your stores’ product shelf space. Display units are also available for the promotion of NorStone cables and accessories.

INDEX

ESSE
Black or white powder coated steel, tempered glass shelf
Finishes (structure/shelves): Black-Black, Black-Red, Black-quartz grey, Black-Blue lagoon, Black-Frosted, White-Black, White-Frosted.
Dimensions: W1100 x H530 x D400 mm

ESSE HIFI
Black powder coated steel, tempered glass shelf
Finishes (structure/shelves): Black-Black, Black-Red
Dimensions: W570 x H860 x D400 mm

ESSE MINI
Black powder coated steel, tempered glass shelf
Finishes (structure/shelves): Black-Black, Black-Frosted.
Dimensions: W800 x H500 x D350 mm

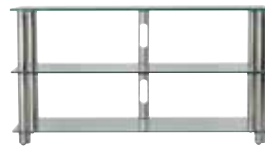

ESSE STAND
Black powder coated steel, tempered glass shelf
Finishes (structure/shelves): Black-Black, Black-Red
Dimensions: W230 x H610 x D250 mm

BERGEN 2
Finishes (structure/shelves): Black powder coated steel, black tempered glass
Dimensions: W559 x H610 x D500 mm

BERGEN AV2
Finishes (structure/shelves): Black powder coated steel, black tempered glass
Dimensions: W1058 x H529 x D500 mm

EPUR 3
Finishes (structure/shelves): Satin brushed and clear tempered glass
Dimensions: W1100 x H581 x D400 mm

EPUR 4
Finishes (structure/shelves): Satin brushed and clear tempered glass
Dimensions: W630 x H769 x D500 mm

EPUR STAND
Finishes (structure/shelves): Satin brushed and clear tempered glass
Dimensions: W230 x H600 x D240 mm

Finishes (structure/shelves): Black powder coated steel, black tempered glass
Dimensions: W640 x H761 x D512 mm

PIÙ AV
Finishes (structure/shelves): Black powder coated steel, black tempered glass
Dimensions: W1100 x H600 x P450 mm

KHALM
Laquered MDF and chrome stand.
Colors: Gray, black or white
Dimensions: W1000 x H483 x D520 mm

KUBBEN STAND
Finishes (structure/shelves): Dark rosewood and white tempered glass
Dimensions: W250 x H685 x D270 mm

KUBBEN
Finishes (structure/shelves): Dark rosewood and white tempered glass
Dimensions: W625 x H762 x D500 mm

KUBBEN AV
Finishes (structure/shelves): Dark rosewood and white tempered glass
Dimensions: W1120 x H524 x D500 mm

KUBBEN WB
Finishes (structure/shelves): Dark rosewood and white tempered glass
Dimensions: W1300 x H430 x D502 mm

VINKEL

Finishes (structure/shelves): Black powder coated steel, plain bamboo or black tempered glass
 Dimensions: W1150 x H900 x D500 mm

ARKEN 900

Finishes (structure/shelves): White laquered MDF, black tempered glass, clear tempered glass
 Dimensions: W900 x H550 x D440 mm

ARKEN 1200

Finishes (structure/shelves): White laquered MDF, plywood bamboo or black tempered glass, clear tempered glass
 Dimensions: W1200 x H600 x D450 mm

ARKEN STAND

White laquered MDF
 Dimensions: W165 x H630 x D295 mm

ARKEN TABLE

Finishes (structure/shelves): White laquered MDF, plywood bamboo, clear tempered glass
 Dimensions: W1110 x H350 x D750 mm

STÄBBL HIFI

Finishes (structure/shelves): Black powder coated steel, black tempered glass
 Dimensions: W600 x H787 x D550 mm

STÄBBL AV

Finishes (structure/shelves): Black powder coated steel, black tempered glass
 Dimensions: W1140 x H572 x D550 mm

TÄBLY

Finishes (structure/shelves): Black tempered glass, Silver PVC
 Dimensions: W1500 x H410 x D500 mm

BAHO

Finishes (structure/shelves): White or Black laquered MDF, black tempered glass
 Dimensions: W1500 x H600 x D580 mm

CIKOR

Finishes (structure/shelves): Black or white laquered MDF, black tempered glass
 Dimensions: W2000 x H464 x D610 mm

TIBLEN

Finishes (structure/shelves): Satin brushed and clear tempered glass
 Dimensions: W450 x H1160 x D450 mm

GALBY

Finishes (structure/shelves): Column: Black powder coated steel, white MDF laquered stand, black tempered glass
 Dimensions: W900 x H1150 x D500 mm

SAEBY

Finishes (structure/shelves): white MDF laquered, column: powder coated steel
 Dimensions: W1500 x H1210 x D450 mm

IRYX

This kit allows you to transmit IR remote control signals to components placed inside a closed furniture piece.

SAFELINE

Safety kit for TV, adaptable to any glass or wood furniture piece. TV can still rotate.

FINN

Finishes: powder coated silver or black
 Dimensions: W300 x H700 - 1200 x D300 mm

INDEX

STYLUM I, II, III
 Finishes: Black, white or silver steel laquered
 • Stylum I
 Dimensions: W250 x H500 x D250 mm
 • Stylum II
 Dimensions: W250 x H600 x D250 mm
 • Stylum III
 Dimensions: W250 x H800 x D250 mm

TOLKE
 Finitions: Black or silver powder coated steel, plain wood
 Dimensions: W304 x H825-1125 x D233 mm

HILEROD
 Finishes: Black or white powder coated steel
 Dimensions: W280 x H604 x D280 mm
 Upper shelf: W170 x D125 mm

PLACE 200
 Directional wall mount for VESA compliant screen: 50 x 50, 75 x 75, 100 x 100, 200 x 200, 100 x 200.
 Finish: Black satin steel
 Dimensions: W222 x H222 mm

SLIM V200
 Ultra flat wall mount for VESA compliant screen: 50 x 50, 75 x 75, 100 x 100, 200 x 200, 100 x 200.
 Finish: Black satin steel
 Dimensions: W265 x H225 mm

WALKSTAND
 Finishes (structure/shelves): Black powder coated steel
 Dimensions: W266 x H722 x D332 mm

SLIM 2337
 Universal wall bracket compatible with screen from 23" to 37". VESA compliant screen: 400 x 400.
 Finish: Black satin steel
 Dimensions: W480 x H95 mm

WALM 3260
 Walm 3260 aesthetically supports any plasma screen from 32" to 60".
 Finish: Black satin steel
 Dimensions: W660 x H440 mm

WALD 3763
 Walm 3763 aesthetically supports any plasma screen from 37" to 63".
 Tilt: 10° down - Swivel: 90°.
 Finish: Black satin steel
 Dimensions: W860 x H440 mm

MAGIC 3255
 Ultra slim wall mount for flat screens. Its ingenious system allows you to mount all flat screens 32"-55" and up to VESA 400 x 400. With a thickness of only 14.5 mm, it disappears completely once behind the screen. A great solution for ultra-thin screens.
 Finish: Black satin steel
 Dimensions: W400 mm

SLIM 3763
 Universal wall bracket compatible with screen from 37" to 63", up to VESA 800x400. Safety system (padlock not included). VESA compliant screen: 600 x 600.
 Finish: Black satin steel
 Dimensions: W860 x H440 mm

PROJE-S
 Universal support adjustable in height. Compatible with all the projectors (including Philips and Toshiba). Distance ceiling-projector: 120 ou 190 mm. Tilt: ± 15°. Swivel 360°.
 Finish: Black satin steel
 Dimensions: ø130 x H190 mm
PROJE-L
 Distance ceiling-projector: 120, 340, 430, 650, 735, 955 ou 1040 mm. Tilt: ± 15° swivel 360°.
 Finish: Black satin steel
 Dimensions: ø130 x H1040 mm

PROJE-W
 Universal support adjustable in length. Compatible with all the projectors (including Philips and Toshiba). Distance wall-projector: 480 à 660 mm. Tilt: ± 15°. Swivel: 360°.
 Finish: Black satin steel
 Dimensions: W510 x H200 mm

CLASSIC
 The quality of speaker cables plays a major role in delivering music signal from your source to your loudspeakers. The Classic line uses ultra pure (Oxygen Free Copper 99.99%) copper in a transparent outer jacket.

100m spool
 CL 150 (2x1,5 mm²)
 CL 250 (2 x 2,5 mm²)
 CL 400 (2 x 4 mm²)
 CL 600 (2 x 6 mm²)

CLASSIC WHITE
 The quality of speaker cables plays a major role in delivering music signal from your source to your loudspeakers. The Classic line uses ultra pure (Oxygen Free Copper 99.99%) copper in a white outer jacket.

100m spool :
 W 150 (2x1,5 mm²)
 W 250 (2 x 2,5 mm²)

CLASSIC BLACK
 The quality of speaker cables plays a major role in delivering music signal from your source to your loudspeakers. The Classic line uses ultra pure (Oxygen Free Copper 99.99%) copper in a black outer jacket.

100 m spool
 B 150 (2x1,5 mm²)
 B 250 (2 x 2,5 mm²)

SILVER

The ultra low resistance offered by the silver-plated ultra pure copper conductors of the SV150 ensures a firm grip and transient precision.

100 m spool
SIL 150 (2x1,5 mm²)
SIL 250 (2 x 2,5 mm²)

DHCR 100.2

The DHCR cable (Dual Helix Copper Ribbon) introduces innovation in cable architecture in order to combine large power capacity and best transient response.

50 m and 100m spool
DHCR 100.2 (2 x 1 mm²), 50m

MINI SPOOL

The Classic line uses ultra pure (Oxygen Free Copper 99.99%) copper in a transparent and white outer jacket.

CL 150 (2 x 1,5 mm²), 15 m
CL 250 (2 x 2,5 mm²), 10 m
W 150 (2 x 1,5 mm²), 15 m
W 250 (2 x 2,5 mm²), 10 m

RCM 350 SUB

Conductor: Tin OFC - Shield: Optimized Tin OFC (99.999 %) shield braid - Outer jacket: PVC with Nylon braid - Plug: Metal body - Black chromium finish - Contact: 24K gold-plated contact - Solder: Tin Length: 5,10 m

RCS 500

Conductor: Silver plated OFC 99,999%
Shield: Optimized silver plated copper OFC (99.999 %) shield braid - Outer jacket: Crystal clear PVC - Plug : Metal body - Silver chromium finish - Contact: Silver plated contact - Solder: Silver Length: 0,5m, 1m

OPTIK 500

Digital optical cable, toslink to toslink connect your sources to home-cinema amplifier.
Length: 1, 1,5 and 3 m

IRCK 280

Mini-jack 3,5 mm stéréo to 2 x RCA
Conductor: Tin OFC Shield: Optimized Tin OFC (99.999%) shield braid + AL-Mylar Plug Metal body - Pearl White finish Contact: 24K gold-plated contact - Solder: Tin iRK 280 (3.5 mm Mini-Jack to 3.5 mm Mini-Jack - Stereo) Length: 1,5 m / 4.9 ft Cable Structure: twisted pair
Conductor: Tin OFC Shield: AL-Mylar Plug Metal body - Pearl White finish Contact: 24K gold-plated contact - Solder: Tin Length: 1,5 m

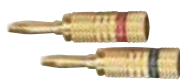

IRK 280

Mini-jack to mini-jack (2 x 3,5 mm stéréo)
Structure: twisted pair - Conductor: Tin OFC - Shield: AL-Mylar - Plug: Metal body - Pearl White finish - Contact: 24K gold-plated contact
Length: 1,5 m

BLS 500 BANANA PLUG

High performance banana plug - Silver-plated - contact - Lock'in system for safe and strong contact - Compatible with cable up to 6 mm².
4 pieces

GOLD PLATED BANANA PLUG

The screw-fixing system allows an in-line cable connection, for a clean and aesthetic finish. The gold finish of the connectors ensures high contact pressure both with the cable and the plug.
4 pieces

HDR 180

HD Video: 720p, 1080p, 3D 1080p
Max resolution: 2560 x 1600p75, Deep Color, xvYCC - Audio: 8 channel LPCM, 192kHz - 24 bits, SACD, Dolby TrueHD bitstream capable, DTS-HD - Master Audio bitstream capable. OFC tin conductor - OFC tin braid + Aluminium-Mylar - shield - Tin Solder
PE Foam Insulation - Exclusive ergonomic design molded plug - Rust-free gold plated contact

Lengths: 1.5, 3, 5, 10 m

HDR 180

HD Video: 720p, 1080p, 3D 1080p - Max resolution: 2560 x 1600p75*, Deep Color, xvYCC - Audio: 8 channel LPCM, 192kHz 24 bits, SACD, Dolby TrueHD - bitstream capable, DTS-HD - Master Audio bitstream capable. - OFC tin conductor - OFC tin braid + Aluminium-Mylar shield - Tin Solder - PE Foam Insulation - Exclusive ergonomic design - molded plug
Rust-free gold plated contact

Lengths: 1.5, 3, 5, 10 m

HDS 500

High Speed HDMI (10.2 Gbps) - HD Video: 720p, 1080p, 3D 1080p -Max resolution: 2560 x 1600p75, - Deep Color, xvYCC - Audio: 8 channel LPCM, 192kHz - 24 bits, SACD, Dolby TrueHD - bitstream capable, DTS-HD Master - Audio bitstream capable. OFC silver plated conductor
OFC silver plated braid + Aluminium-Mylar shield - Silver solder - PE Foam Insulation - Exclusive ergonomic design metal plug - Rust-free silver plated / gold contact.
Lengths: 1.5, 3, 10 m

HDS 540

High Speed HDMI 1.4 with Ethernet (10.2 Gbps) - HD Video: 720p, 1080p, 3D 1080p - Max resolution: 2560x1600p75 - Deep Color, xvYCC - Audio: 8 channel LPCM, 192kHz - 24 bits, SACD, Dolby TrueHD bitstream capable, DTS-HD Master - Audio bitstream capable. Ethernet channel - OFC silver plated conductor - OFC silver plated braid + Aluminium-Mylar shield - Silver solder - PE Foam Insulation - Exclusive ergonomic design - metal plug - Rust-free silver plated / gold contact
Lengths: 1.5, 3, 10 m

HDMI REPEATER

Needed for HD transfer over 10 m
Max length: 10 + 10 m
Bandwidth: 1.65 GHz
Input video signal: 1.2 V pp
DDC signal: 5 V pp (TTL)
Connector: 19 pin HDMI Type A
Power consumption: 1 W typ / 15 W max
Power supply (not provided): 5 V DC*
Dimensions: 50 x 32 x 15 mm

HDMI SWIVEL ADAPTOR ±90°

Needed for TV hanged on wall
Connector: A type M/F HDMI plug,
All pins connected
Dimensions: 67 x 21 x 10 mm,
Depth @ 90°: < 36 mm
