## THIN 345 UltraThin - Swivel TV Wall Mount

Winner of the prestigious Red Dot design award (the most influential design award in the world) these LED/LCD/Plasma flat screen wall mounts add an elegant and sophisticated touch to your room and entertainment system. The THIN 345 easily turns your flat screen TV up to 180 degrees (90 degrees left and 90 degrees right), and tilts your screen up to 20 degrees forward, so everyone has a perfect view from any spot. Almost invisible, with just 1.4 inches (3,5 cm) of space between the TV and the wall, these flat screen wall brackets also come equipped with a cable inlay system to keep cables hidden. It only takes a moment to install this LED/LCD/Plasma TV wall mount with the easy level adjustment and drilling template, and it is suitable for 40 to 65 inch (102 to 165 cm) screens with a maximum screen thickness of 2 inches (5 cm). It also extends up to 25 inches (63 cm) out from the wall.

Be the envy of all your friends with the state-of-the-art THIN 345 from Vogel's.
